

Mass Storage Technologies

Chapter 8

Episode: **Boot Order**

Objective(s):

Core 1: 3.3 Given a scenario, select and install storage devices.

Core 2: 1.9 Given a scenario, perform OS installations and upgrades in a diverse OS environment.

Episode Description

A+

Today's computers often use multiple mass storage devices. It's critical that the system boots from the right device. Boot order is handled via the system setup.

CompTIA

Key Terms

A+

- 0:30 - Objective term - Internal hard disk drives
- 0:36 - Objective term - 2.5" SSD
- 0:43 - Objective term - Optical media
- 0:51 - Objective term - M.2 drive
- 1:00 - Objective term - External USB thumb drive

CompTIA

Quick Review

- When a system boots, it looks for a bootable device
- It's important to make sure the system looks for the correct boot devices
- The boot order is defined in the system setup
